NTW Houston 2010

May 2010 is HERE! On May 16 thru 22 we are celebrating the valuable contribution of the transportation industry with another week of industry-wide, city-wide events for NATIONAL TRANSPORTATION WEEK 2010.

Houston has won the TCI award for the hemisphere-wide NTW celebration competition for two years in a row, thanks to great multi-club participation. This year, the NTW Houston chair is TCI President Denny Tam (DJ Railcar Services). TCH has made plans for another year of NTW celebration and encourages all clubs to do the same. **Your company, and you as an individual,** can get involved. To see the great series of events being lined up see www.ntwhouston.org.

Make plans now to attend the NTW All-Club luncheon at Brady's Landing on Thursday, May 20, hosted by HTPA. The speaker for this year is William R. Stockton, Ph. D, P.E., Texas Transportation Institute. Harris County Judge Ed

Emmett is our Honorary Chairman and will be present. The all-club luncheon will also have several legislators in attendance as well as the Harris County Sheriff's Office will have multiple units present that interact with transportation. Full info is on the web page noted above.

Events scheduled include:

- **Tuesday**, May 11 SDTC Golf Outing & Raffle
- **Monday**, May 17 – Golf Tournament by HACA
- **Thursday**, May 20 – All Club Lunch by HTPA
- **Friday**, May 21 – Night at the Astros by WTC
- **Saturday**, May 22 – SCI CME Tour by NDTA
- **Saturday**, May 22–National Maritime Day at HMM
- **Saturday**, May 22 –Volleyball & Family Day: ITMA

See MORE DETAILS of the **All-Club luncheon** on pages 3 and 4 of this issue.

Full details are at www.ntwhouston.org. Be a part as an attendee, sponsor, or volunteer! Bring a non-industry guest. This is our time to educate the public about what transportation does for America.

The federal NTW site is at www.ntweek.org but as of press date it is not updated. NTW has a big history across the nation, and with enough individuals helping, this can be part of a return to

previous stature. Past years' events are found on www.transclubhou.org, at the TCH Events button.

The History of NTW

National Transportation Week (NTW) is the result of efforts started by a remarkable Texan, **Charlotte Jones Woods**.

In **1952**, as the 1st Educational Chairman of the newly formed **Women's Transportation Club of Houston (WTC)**, a \$500 educational fund was established and designated for a scholarship program at the University of Houston to promote a degree curriculum consisting of transportation industry subjects.

To their surprise, nobody applied.

The college politely reported they had not been able to interest anyone in becoming a truck driver or a policeman. Ms. Woods and the Women's Transportation Club decided they were in trouble. "The University of Houston knows as much about the transportation industry as the students...that is to say, nothing!"

Not wanting the project to fail, the WTC made inquiries to see if a day, week or month was set aside to honor the transportation industry. Nothing was found, so the club decided to change that themselves and have a Houston observance of Transportation Week! The first Houston observance came about in 1953 during the week of March 29 to April 4.

Contacting other Texas towns, nine additional cities were set up for the observance of Texas Transportation Week in 1954. In collaboration with attorney **Frank Norton** of Dallas and the **Texas Motor Transportation Association**, the interested parties put together a 50-page book which addressed itself to the "How's, Why's and Where's" for Transportation Week. The book was sent out across Texas and to clubs in other states where a similar interest was found.

At the **1954 Educational Congress of Traffic Clubs International**, the members from Texas gave evidence to the success story of two years experience in promoting the Transportation Industry.

Charlotte Woods was elected to her first term as Director of TCI and sold TCI on the National Sponsorship of National Transportation Week. A National Chairman was appointed for 1955.

Immediate efforts were unsuccessful toward a set date to be proclaimed by the President of the United States. A great many people spent long hours in Washington and other areas trying to accomplish this end. There is no telling how many "out of pocket dollars" were spent by those dedicated TCI Officers, the management of the industry and various carriers themselves before they even began to approach success.

Year after year a bill would get through the United States House of Representatives, then the U.S. Senate, for a Presidential Proclamation only to have it amended before passing...for a specific year only.

Finally, in 1962 **President John F. Kennedy** declared a permanent date and from that day forth it will always be the week in May which contains the third Friday (National Defense Transportation Day), with the Maritime Day on the following Saturday.

ITMA... Making NTW History in Texas:

Ann Wilson served as **ITMA President** 1998 to 2000. The Newsletter/Communications Director was **Mary Ann Chambers**.

While Serving as Past President on the the International Transportation Management Association (ITMA) under **Betty Vernon** who served as President from August 2000 to 2002, the ITMA Board decided and Ann obtained Proclamations each year from Governor Perry for National Transportation Week to be recognized by the State of Texas. This had to be done on an annual basis.

During this time other transportation organizations had obtained proclamations locally

from the mayors of Houston. Ann's personal goal was to get a bill passed by the Texas Governor honoring this week in Texas - permanently bringing this to Texas law, where Charlotte Woods started her mission.

In June 2002, during an ITMA Board Meeting, Mary Ann Chambers brought to the board's attention that she had just attended her reunion at St. Agnes and it was there she ran into one of her former classmates who was none other than Rep. Beverly Wooley.

Mary Ann visited with Beverly during this reunion explaining to her briefly what ITMA wanted to do. On June 17th she sent more information to her advising Beverly that Ann would be working with them on this.

On July 8th Rep. Wooley's assistant, **Wendi Ayles**, and Ann made contact. Beverly was in Colorado and was due back in Houston from September thru December. Wendi and Ann put together the information needed which was to be given to the Texas Legislative Council to subsequently present a bill for permanent Texas acknowledgement of NTW. The next session for legislature was set for January through May 2003.

On February 7, 2003 Wendi sent Ann a copy of the language for Transportation Week in Texas. She explained there were 2 pieces of legislation: (1) a bill that sought to make Transportation Week permanent, and (2) a resolution which would establish Transportation Week temporarily for this year.

Betty Vernon and Ann reviewed this information making a few slight changes and by Valentine's Day changes were accepted by the Legislative Council. On February 18, 2003, Wendi advised H816 was referred to the House Committee on State Affairs and would be heard before the committee on February 24.

On May 9, 2003, Wendi advised that HB816 passed the House and was scheduled for public hearing May 12, 2003. After the Senate committee she explained it would have to pass the Senate and

would then go to the Governor for his consideration.

In June 2003 **Governor Rick Perry** signed HB816 into law. Thank you, Governor Perry!

Why Should I Support NTW?

Do you ever find yourself facing a less-than-ideal (frustrating) situation at work? Ever feel underappreciated not only as a worker, but as an industry? What can you do about that?

Consider flying the flag of transportation to let the rest of our society know just how vital the transportation industry is to everyday life. You can write a letter to the editor of your hometown newspaper or favorite magazine. You can help support transportation groups and scholarships. You can go speak in schools to wake the next generation up to the industry that brings their iPhones, Snackables, and Nikes.

A way you can get started right NOW is to jump in on NATIONAL TRANSPORTATION WEEK. Grab a friend (maybe one who is not in the industry) and attend some of the functions lined up for the week of May 16-22. This is a start at helping fix those tormenting times at work!

Upcoming TCH Events - AROUND THE CORNER!

The **TCH MAY LUNCHEON** will be in conjunction with the NTW Houston all-club luncheon at **Brady's Landing on THURSDAY, MAY 20, 2010.** This is the third straight year that

we will be part of this multi-club luncheon. We expect approximately 300 in attendance, including dignitaries including **Harris County Judge Ed Emmett**, **Texas State Representative Ken Legler**, and **Texas State Senator Mike Jackson**. The featured speaker is **Dr. William R. Stockton**, of the **Texas Transportation Institute**. Distinguished military guests include **Capt Jim Whitehead** of the United States Coast Guard, **Colonel Phil Bossert** of the United States Air Force ROTC, **Colonel Kenneth Wisian** of the Texas Air National Guard, and **Captain Jeff Gruetzmacher**, of the United States Navy. Returning from prior years is the **Harris County Sheriff's Office**, including **Major Van Pelt** and **Captain Hennessy**, with their DOT Enforcement and Mobile Command units for display, and **Rotary International**, supporting their transportation-intensive world literacy program **ROTARY BOOKS FOR THE WORLD**. For more information, and to register, take your browser to www.ntwhouston.org.

The **TCH JUNE LUNCHEON** will be on June 1 at 11:30 am at the Houston Club (founded in 1894) at 811 Rusk, on the **9th floor –The Grill Room**. The speaker will be **GARY BURNS**, Logistics Manager at **Cemex**, who will speak on the issues of moving Heavy Haul material via various modes. www.houstonclub.org

WHO IS IN CHARGE?

It is the American way to take responsibility and lead the effort. We take pride in being cutting edge, ‘taking the bull by the horns’, and making sure there are no surprises. But are we really in charge? How much do we really control? And if not us, then who is in charge?

One example of our limitations was seen last month when a purely natural event occurred: the eruption of Iceland's Eyjafjoell volcano. Suddenly, \$200 million airliners (and all else) were grounded for days on end. There seemed to be little that could have been or could be done to overcome the dangers of flying in volcanic ash.

This did not mean that it was time for anyone to sit down and wait. In fact, it was quite the opposite. It was time for many to step up, to work longer days, to reach higher and be more creative than before, doing more than is expected on ‘normal days.’ Test flights were made and by utilizing a wide array of information and resources, business finally returned to normal.

So who is in charge? Is it the person with knowledge? The one with initiative? When you look outside the norm to see what factors and what powers are in control, the success is sure. *Cool.*

Truck Lines and Their Logos

Dale W. Crawford. Pres. 1990-91

Truck lines are like any other commercial enterprise. They are proud of their industry and their important service to the American people. And, like any other business, they want to put something out there that will grab everyone's attention.

Truck lines have always found some different and unique ways to identify themselves. Campbell 66 Express probably took first place. The corporate offices of Campbell were in Springfield, Mo which is on old Route 66, the "Mother Road". It was the heaviest traveled thoroughfare in the U.S. The founders name was Frank Campbell. The camel was the major form of land transportation three thousand years ago. So, it made perfect sense to connect the two. You have to admit the "Humpin to Please" with the camel running full throttle, tongue flapping in the breeze was an attention getter!

The company published an in house monthly magazine called "Camel Tracks."

Next time we'll talk about Navajo Freight Lines, "Route of the Blue Eyed Indian". Then there's the Preston "151" line, Melton Truck Lines, the "Running Bunny" line and a host of others.

This will be interesting to read more. Thanks Dale! Ed.

Down the Highway – Trucking News

By Danny R. Schnautz

>As the trucking industry advances through the use of information technology and other devices we have seen efficiencies such as empty mile reduction, improved asset utilization, and reduced fuel consumption. Each of these factors has helped to keep the cost per mile constant, a trend that cannot continue indefinitely. For one thing, drivers are required to know more and do

more, so wages must increase to keep the seats filled, whether the economy is good or bad.

>Speaking of driver pay, it was a different world back when drivers were exempted from the Fair Labor Standards Act. Much of

the pressure enforcing Hours of Service regulations stems from the economic pressures of truck driving – making a living. Not many industries have the widespread stigma of violating maximum duty hours that trucking does.

>Truck orders are on the rise after a record-low year for build and sales. The trucks being bought now use the 2010 EPA compliant diesels, which add upfront cost, maintenance costs, and operating inefficiencies. How will this "green" effort be paid for? The only way possible, from the rates charged to shippers.

Submit your insight on your part of the industry to the editor for consideration of publication.
